GOVERNMENT OF ASSAM

LAND UTILISATION STATISTICS

(PROVISIONAL)

(2014-15)

**DIRECTORATE OF ECONOMICS AND STATISTICS, ASSAM
GUWAHATI-28**

PREFACE

This publication of Land Use Statistics of Assam for the period 2014-15(Provisional) is compiled by the Agriculture Division of the Directorate of Economics and Statistics, Assam gives twelve (12) fold classification of land put to various uses. This publication also incorporate the area covered by various seasonal crops grown in Assam as well as source/season wise crops covered under Irrigation etc. It is hoped that the information incorporated in this report will be useful for policy makers, Administrator, planners and Research Scholars.

The dedicated and painstaking efforts of the team of Officers and Staff of the Agriculture Division associated with the work in bringing out this publication are highly appreciated.

Comments and further improvement of this Report are most welcome.

(P.K. Goswami)
Director of Economics & Statistics, Assam (i/c)
Beltola, Guwahati-28

LAND UTILISATION STATISTICS (LUS)

INTRODUCTION:

Land utilization Statistics is the most important factor for planning and programmes for better management of Agricultural sector. Moreover, parameters like area, production, average yield of agricultural crops followed by Land utilization statistics. Land Utilisation Statistics are basically secondary data supplied by Circle (Taluk) Revenue Authority of the State for each agriculture year ending June. The lowest unit of data collection is the Revenue Circle office of the concerned district.

METHODOLOGY OF LAND UTILIZATION STATISTICS:

There are three parts of LUS covers 68 crops which are required to furnish to the Govt. of India (Ministry of Agriculture) in three different formats designed by the Statistical wings of the said Ministry.

1. Classification of Land of the Geographical area of the District.
2. Area under different Crops grown in the State.
3. Source wise and Crop wise Irrigation data.

Geographical Area Classification abstract:- The revenue circles of the concerned district are in practice of maintaining an abstract register of land classification known as “Matikali Sangkhipta” which is required to update for each and every agricultural year by the revenue circle offices as per Land Record Manual of Revenue Department, Assam. The revenue circles are maintaining this abstract register classifying the area up to (9) nine classes only as per the guidelines of that Department. Now, it has been recommended by the Ministry of Agriculture, Govt. of India to furnish 12 fold classification of land of Geographical area of each District. In case of new three classes i.e. Water Logged Land, Land under Social Forestry and Land under Still Water as introduced by Government of India, the area are not available with them. In absence of such revenue figures, it requires for us to estimate at our end. The area of these three classes is already included with the earlier nine fold classification of the geographical area of circles/districts.

Crop area abstract:- The Crop area abstract is also maintained at circle level. The updation of this abstract is not being done by the Circle offices for a long time though the Govt. needs up to date information in this regard. This causes the area dispute at the State level forecast Committee at final forecast stage also. However, the area of 38 Forecast crops are finalized in different steps at Circle, Sub-divisional, District and ultimately at State level, in the forecast committee meetings held in time to time. The areas of these 38 forecast crops are incorporated in the Crop Area Abstract accordingly. The area of other minor crops are taken from the Directorate of Agriculture and included in the above abstract during the year of reference.

Irrigation abstract:- This abstract is also being maintained circle wise at Revenue circle offices from which source wise /Crop wise irrigation data are available for reporting as per notion conceived from “Land Record Manual” of Revenue Department. Due to lack of updation of these land records the Directorate is facing difficulties to furnish revenue based figures to the Government of India in due time of reporting. In this regard, this Directorate often uses the data of irrigation Department and from Agriculture Census, conducted in quinquennial basis, while preparing the LUS report yearly.

The above three sets of data on Land Utilization Statistics are playing vital role for future agricultural planning. It requires rethinking so that the Revenue authority of the districts make necessary efforts for regular submission of Land Use Statistics data one copy to the D.L.R, Assam and another copy to the Directorate of Economics and Statistics, Assam as there is provision as per “Land Record Manual” of the Revenue Department of Assam.

CONCEPT AND DEFINITION OF LAND UTILISATION STATISTICS:

| | | |
|-----|--|---|
| 1. | Geographical Area | The latest figures of Geographical Area for the State/District based on Surveyor General of India's data are considered as Geographical Area. |
| 2. | Reporting Area | Reporting Area is the area according to Village Papers i.e. prepared by the village accountants and the figures are based on land records. |
| 3. | Forests | Forest represent all actually Forests Area on the land classed an administered as Forests under any legal enactment dealing with Forests whether State owned or private. |
| 4. | Water Logged Land | Water Logged Land is the land where water is at /near the surface and stands for most part of the year. It is generally found in low lying areas and it excludes Lakes, Ponds and Tanks. |
| 5. | Social Forestry | The Land under Social Forestry is the land on which the trees are planted by the side of railway lines, roadside, river and canal banks with a view to meeting the fuel and the fodder needs of the rural population and to serve the broader goals of soil conservation and provision of shed/shelter for crops. It also includes village forests plantations that are being used by common man. |
| 6. | Land Under Still Water | The land under still water is broadly the land occupied by water bodies like river, lakes, ponds, reservoirs, back water, canals, tanks including nature made deeps in which water stands still for most part of the period. This is the land on which there is no vegetative growth of any kind. |
| 7. | Other Land | The land put to other than agriculture purposes such as Building, Railway tracks, Play ground etc. are brought under this category. |
| 8. | Barren and Unculturable Land | Mountain hills, desert, Swamps (doloni), silted lands, sandy lands etc. cultivation is not possible are classified as Barren and Unculturable Land. |
| 9. | Permanent Pastures and Other Grazing Land | All Grazing Lands, whether they are Permanent Pastures or Meadows are considered as Permanent Pastures and Other Grazing Land. |
| 10. | Land under Miscellaneous Trees and Groves not (not included in the net area sown) | Land under Miscellaneous Trees, crops and Groves such as teak, bamboo, babul, thatch etc. which bear yield only once in its whole life span are classified under this category. |
| 11. | Culturable Waste Land | All lands available for cultivation but not taken up for cultivation or taken up for cultivation once, but not cultivated during the current year and continuously for last five years or more in succession for one reason or other are classified as Culturable Waste Land. |
| 12. | Other Fallow Land | The lands, which are taken up for cultivation but are temporarily put off cultivation for a period of not less than one year and not more than five years are treated as Other Fallow Land. |
| 13. | Current Fallow Land | The cultivable lands which are kept fallow during the current Agriculture year under reports is known as Current Fallow Land |
| 14. | Net Area Sown | Net Area Sown represents the area sown under first crop during the Agriculture year & orchard. |
| 15. | Gross Cropped Area | The Gross Area sown represents the total area cultivated under all food and non-food crops and the area sown with first crops during the Agriculture year. |
| 16. | Area sown more than once | The area sowed more than once represents the difference between the area sown under all crops and the area sown with first crops during the Agriculture year. |

OBSERVATION

The Directorate of Economics & Statistics has been publishing the report on Land Utilization Statistics (LUS) for the state in every year. The information under LUS may term as a back bone for framing different plan and policy by the planners in different spheres, for economic development of the state during a year of reference. The main source for collecting the information is the revenue department. Now, it becomes a challengeable task on the part of the Directorate to get realistic and authentic data on LUS due to non-availability of these data from all the districts in time and preparation of the reports are often delayed. On such circumstances, the Directorate has to prepare report on the basis of information generated from the other sources like Agriculture Census conducted in every five years gape, Social Forestry Department, Irrigation Department etc.

It is ought to mention here that district and sub-divisional officials of this directorate has been undertaking special efforts to collect these data from revenue officials of different circles. We hope that the authenticities of these data are able to maintain to a large extent.

Now, once the base of LUS is being formed in the Revenue Offices of different Districts/Sub-divisions/Circles, it is expected to get regular and timely flow of these data to this Directorate and will be convenient to prepare the LUS report annually in a short time, in the coming years.

PART -I

LAND USE CLASSIFICATION

(PROVISIONAL)

(2014-15)

ESTIMATED TOTAL AREA AND CLASSIFICATION OF AREA

Total Area and classification of Area in Each District of Assam State for the year ending 2014 —15.

Classification of Reporting Area

Area in hect.

| Sl. No. | DISTRICT | Geographical Area | Reporting Area for land utilisation statistics | Forest | Not available for Cultivation | | | | | | |
|--------------|---------------|-------------------|--|----------------|-------------------------------|-----------------|------------------------|----------------|----------------------|----------------------------|-----------------|
| | | | | | Water Logged Land | Social Forestry | Land Under still water | Other land | Total Col (5a to 5d) | Barren & Unculturable Land | Total Col (5+6) |
| | 1 | 2 | 3 | 4 | 5(a) | 5(b) | 5 (c) | 5(d) | 5 | 6 | 7 |
