FOREWARD

This issue of the "Statistical Hand Book, Assam, 2001" is the 33rd in the series. It seeks to provide statistical information on various aspects pertaining to the Socio-Economic trend in the state. In addition, it also provides some comparative statistics with other states and the country as a whole. All efforts have been made to present the latest available data covering upto 2000-2001 in the hand book. However, due to non-availability of such data in few cases, last years published data have been repeated.

The generous co-operation extended by other Departments and Organisations in bringing out the publication is acknowledged with gratitude.

This Directorate is constantly endeavouring to improve the quality of the publication. Any suggestion for improvement of future issues of the publication is most welcome.
